DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

(1) the specifics of the liquid crystal display (LCD) device where the formation of reflection films is obviated in the vicinities of projecting portions which are formed in the pixel regions comprising a first embodiment corresponding to claims 1 and 4-8;

(2) the specifics of the LCD device where the formation of reflection films is obviated in the peripheries of spacers which are formed in the pixel regions comprising a second embodiment corresponding to claims 2, 4-6, and 8;

(3) the specifics of the LCD device where the formation of reflection films is obviated in the peripheries of spacers which are formed in the pixel regions and in portions of the pixel regions except for portions which face a directing direction of rubbing on an orientation film which I brought into contact with the liquid crystal comprising a third embodiment corresponding to claims 3, 4-6, and 8;

(4) the specifics of the LCD device comprising columnar spacers formed by selectively etching a material layer comprising a fourth embodiment corresponding to claim 9.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
